MUNNINGS

for

JUSTICE OF THE PEACE

About me: I am an ordinary person who wants to help others. I have a BS in Science and owned a business for 29 years. I am involved in community activities. I have seen many people who have gotten caught up in the revolving door of the justice system and want to end this by finding out what is the root problem and getting them help for the problem. Thus they will not be back in the system again. I am empathetic and can see into what problems a person can have. I will be donating half my salary to organizations that provide such help. I am 67 years old and semi retired but see a need that I can fulfill.

3 Key Messages about your Campaign:

- Not an attorney or politician
- I am here to help you get through your problem(s)
- I am giving half my salary to organizations that help others so that they will have funds available to help those that I send them.

What do you believe are the core responsibilities for someone elected to this office?

Being honest and fair to everyone

What characteristics or principles are most important for an elected official?

Honesty and integrity

What legacy would you like to leave?

A legacy of fair and honest judgments.
