

Are You Caring for Someone with Dementia?

Comprehensive Home Health Solutions is proud to offer the GUIDE Program (Guiding an Improved Dementia Experience) — a comprehensive Medicare-sponsored program designed to support individuals living with dementia and the family members who care for them.

The **GUIDE** Program offers...

- **FREE respite care** to give you the break you need.
- Professional support to help manage the complexities of dementia care.
- Guidance on resources to make caregiving easier for you and your family.

You're not alone!
Let us help you along
this journey.

Taking care of yourself is just as important as caring for your loved one, and we're here to make that possible.
